## AXIS IP Utility

AXIS IP Utility helps you set the IP address of an Axis network video product. Axis devices on the network are automatically discovered and displayed. Assign network parameters (IP Address, Subnet mask and Default router) or configure the device to obtain its IP address from DHCP. AXIS IP Utility's user interface is available in English, French, German, Italian, Japanese and Spanish.

[How to find the serial number \(S/N\)](#)

### Limitations

The Axis device and the client computer must be on the same subnet/network segment.

AXIS IP Utility

Name	IP Address	Serial Number
AXIS P1346 - 00408CD2001C	10.85.90.201	00408CD2001C

[More files](#)

A

## 5 Axis Utility Icon ion desktop

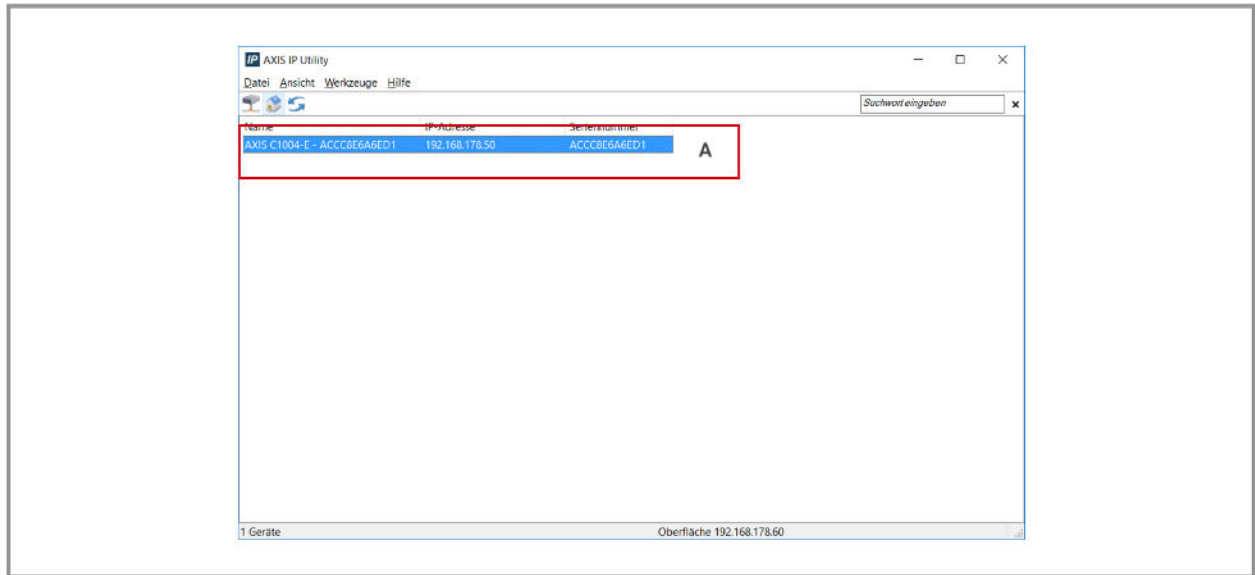

A) Start the AXIS IP Utility tool with – > a **Double-click on the tool icon** which normally is automatically added to your desktop screen.

## 6 Axis Utility Screen

### A) Click on the speaker link.

As long as you have connected your Axis IP speaker with the internet the Audio Player Backend for your Axis IP speaker will automatically open in a new window.

## 7 Axis set your PW

The first time you log on to the speaker you must enter a password. ->

In the next step, you are offered the choice of choosing a language file. Right now, only English is available.

Therefore **you must confirm English as your language** of choice and after that you will see the main menu of the speaker.

The image displays two screenshots of the Axis Communications web interface, likely for a speaker or audio device, showing the initial setup steps.

**Left Screenshot: Passwort über HTTPS festlegen**

This screen is titled "Passwort über HTTPS festlegen" (Set password over HTTPS). It explains that for secure configuration, a root password must be set over HTTPS, which requires a certificate. A button labeled "HTTPS verwenden" (Use HTTPS) is visible.

Below this, the "Benutzer-Setup über HTTP" (User setup over HTTP) section is shown. It includes fields for "Benutzername:" (Username) with the value "root" and "Kennwort (max. 64 Zeichen):" (Password (max. 64 characters)) with masked characters. A "Kennwort bestätigen:" (Confirm password) field is also present. An "OK" button is at the bottom right.

Additional text on the left screen includes instructions about the root password and a warning about the ONVIF (Open Network Video Interface Forum) protocol being deactivated by default.

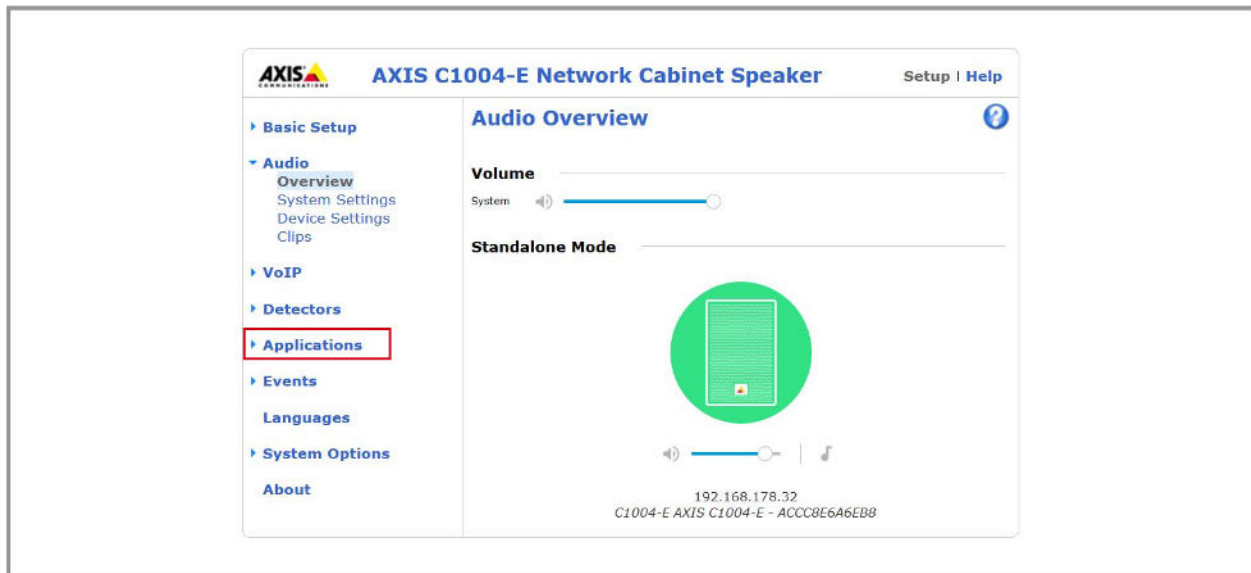

**Right Screenshot: Sprache auswählen**

This screen is titled "Sprache auswählen" (Select language). It shows "Schritt 1 von 2: Herunterladen Englisch Sprachdatei" (Step 1 of 2: Download English language file). It prompts the user to either download a new language file or use an existing one. Two buttons are visible: "Herunterladen Englisch" (Download English) and "Vorhandene Datei verwenden" (Use existing file).

Below this, the "Sprachauswahl überspringen" (Skip language selection) section is shown. It states that the language can be selected later via the device's settings. A button labeled "Englisch verwenden" (Use English) is highlighted with a red box.

## 8 Axis Speaker Menu

In the next step, you must click on – Applications - in the left menu.

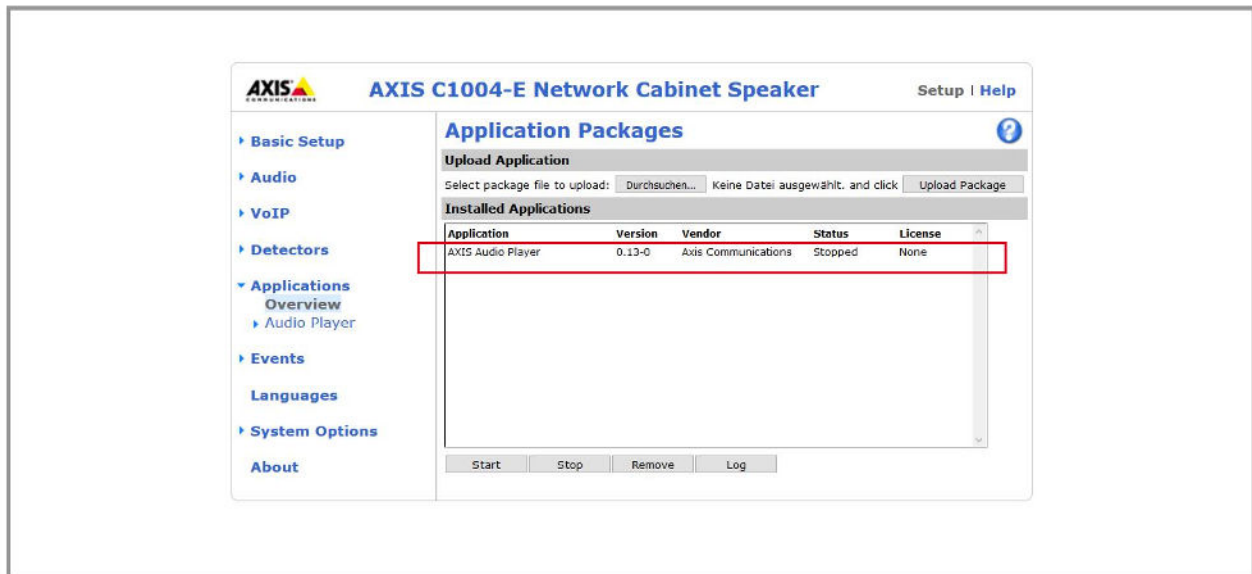

## 9 Axis Application Start

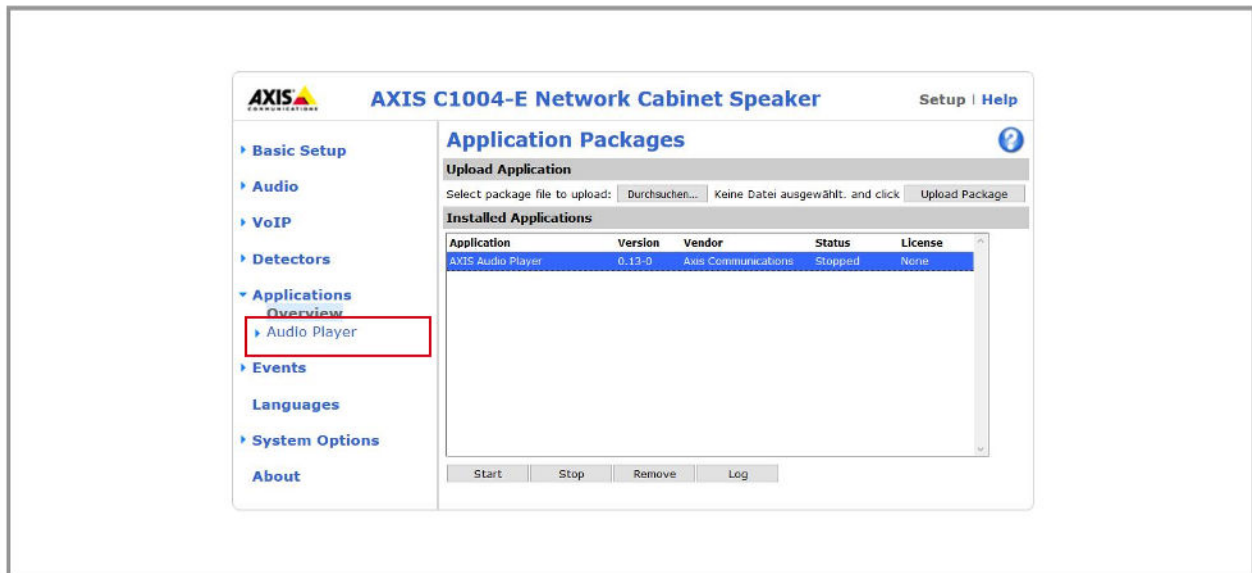

In the installed applications window, you can see the Axis Audio Player. You must now start this player by **clicking on the – Start – button**.

A new page opens.

## 10 Axis Audio Player

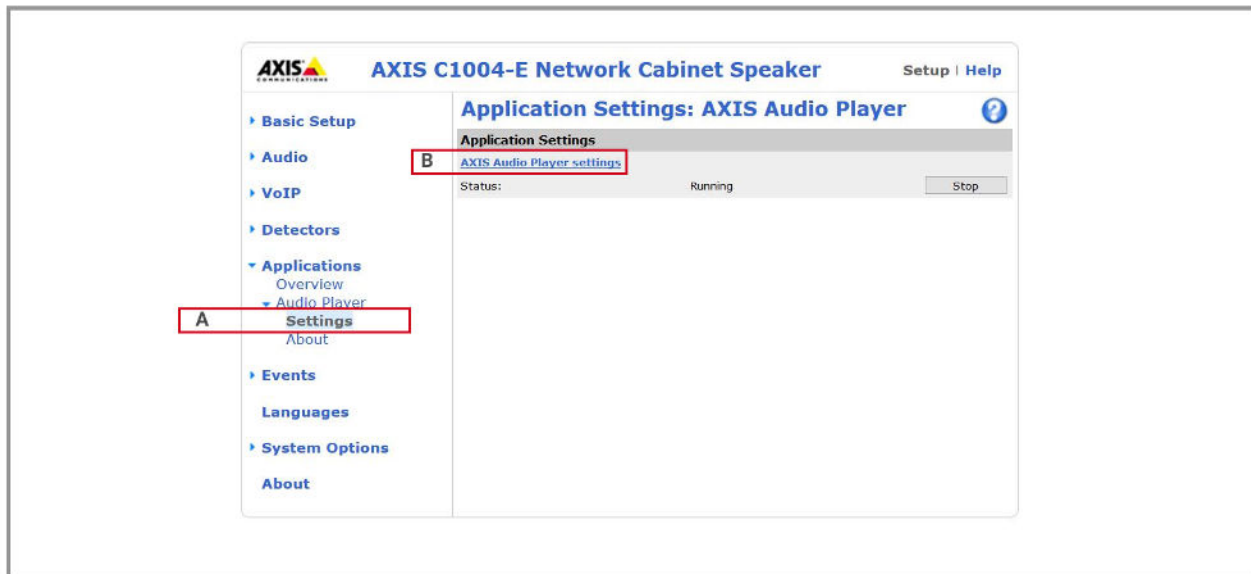

Click „Audio Player“ in the left navigation panel to get access to the „Settings“ navigation Link.

## 11 Axis Audio Player Settings

A) Click „Settings“ in the left navigation panel to get access to the „AXIS Audio Player settings“ link in the main window area.

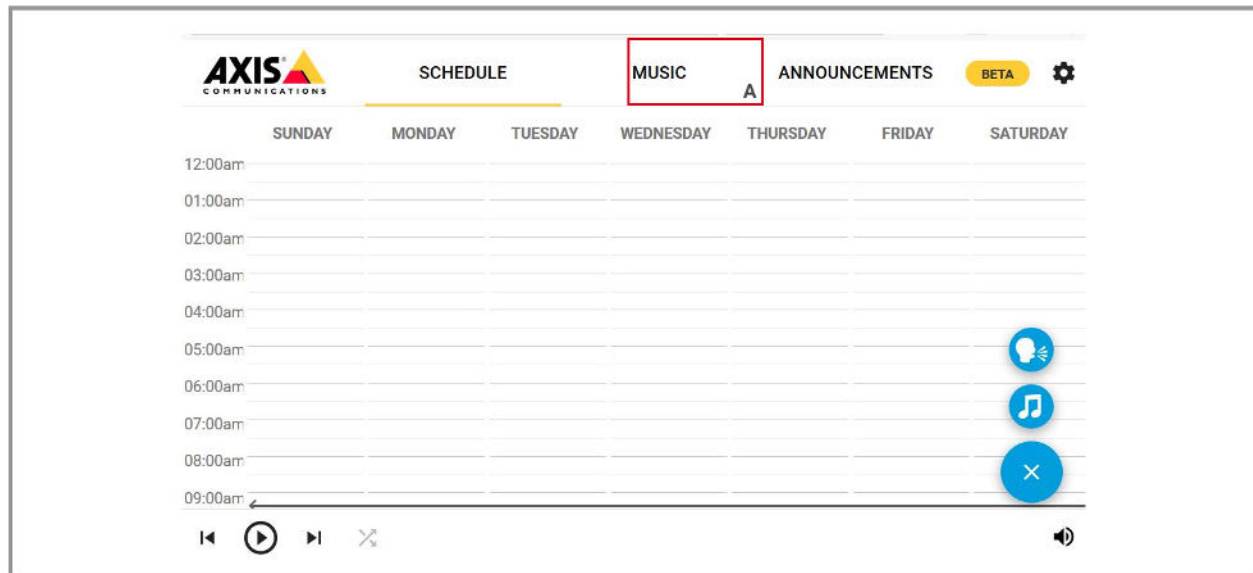

B) Here please click on „AXIS Audio Player settings“.

## 12 Axis music admin Schedule Screen

A) In the Top Navigation menu – > **click on „MUSIC“**. –> A new page opens.

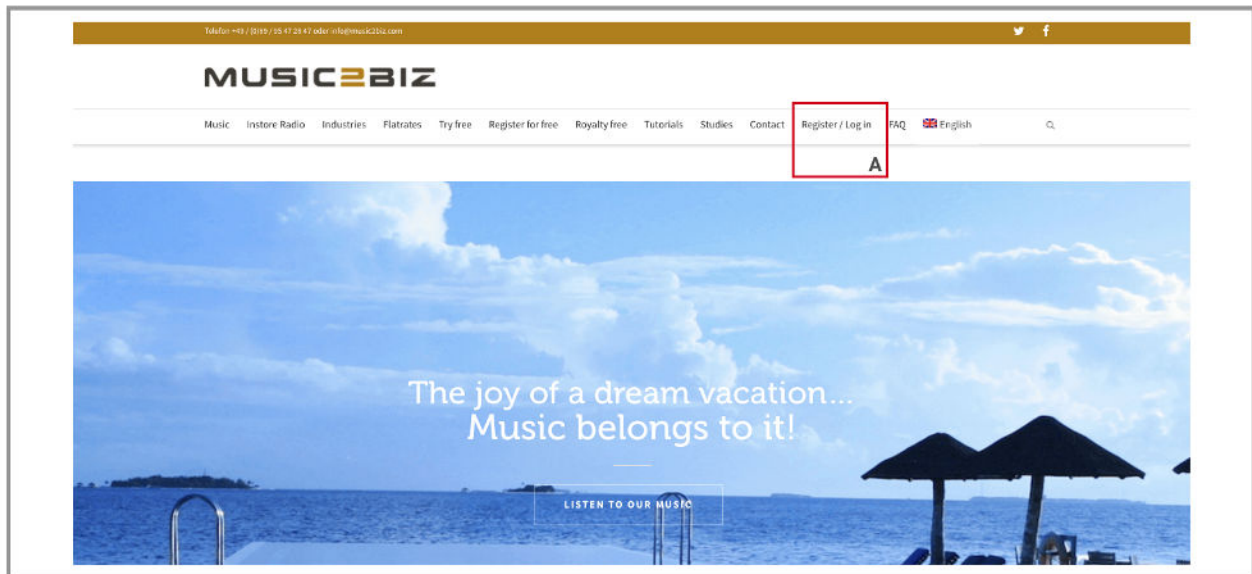

Before you go ahead, first –> **open [www.music2biz.com](http://www.music2biz.com) in a new tab.**

## 13 Axis visit M2B homepage

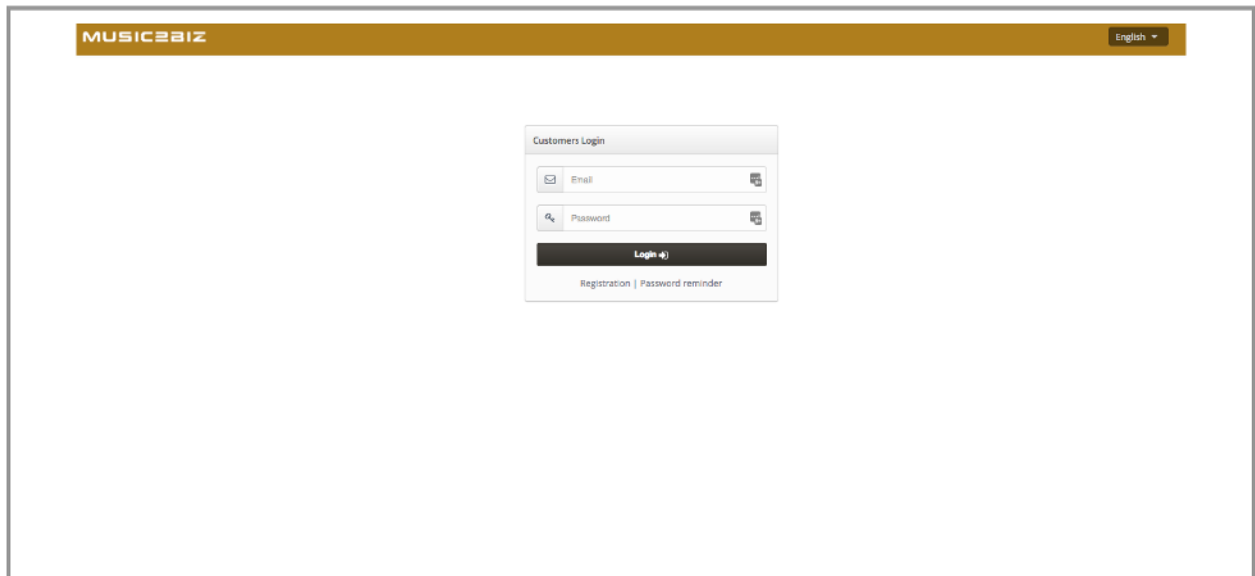

A) On the MUSIC2BIZ homepage you will find the menu item "**Register / Login**" in the top main navigation menu.

Click on this item to access the login page for your customer account.

## 14 Axis visit M2B LogInpage

Enter your LogIn credentials: Your email and your password

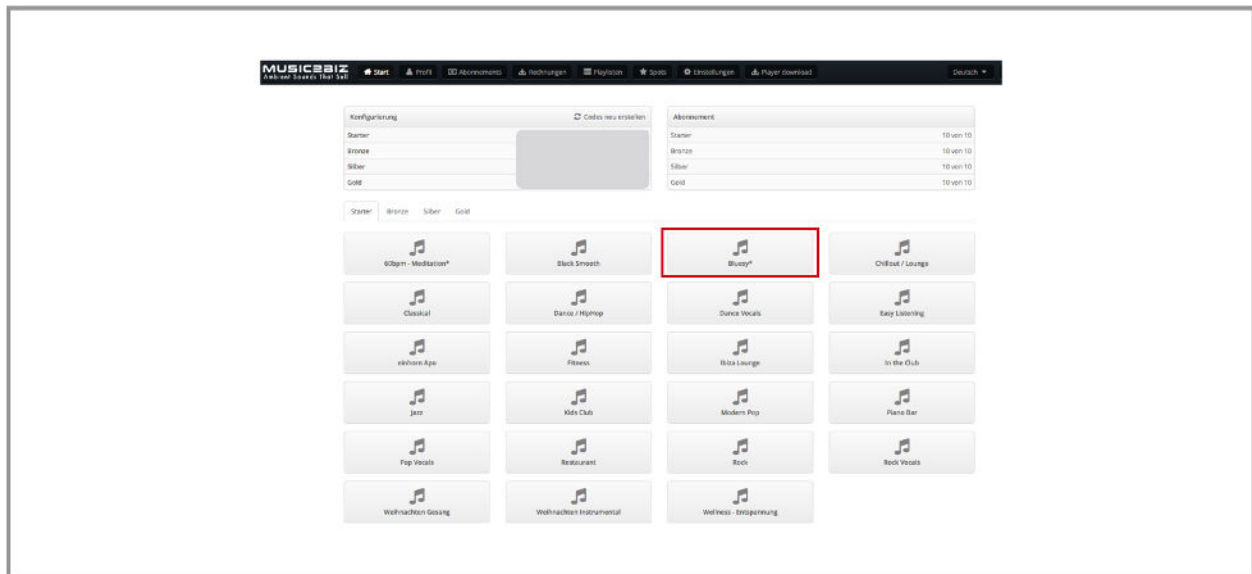

The screenshot shows the Music2Biz website's login interface. At the top, there is a dark orange header bar with the "MUSIC2BIZ" logo on the left and a language selector set to "English" on the right. The main content area is white and features a "Customers Login" form. This form includes two input fields: "Email" with an envelope icon and "Password" with a key icon. Below these fields is a dark "Login" button with a right-pointing arrow. At the bottom of the form, there are links for "Registration" and "Password reminder" separated by a vertical bar.

## 15 Axis visit M2B Program overview

The start page opens which will show several program buttons to access the streaming URL of your choice.

– > Click on e.g. „Bluesy“. A new page opens.

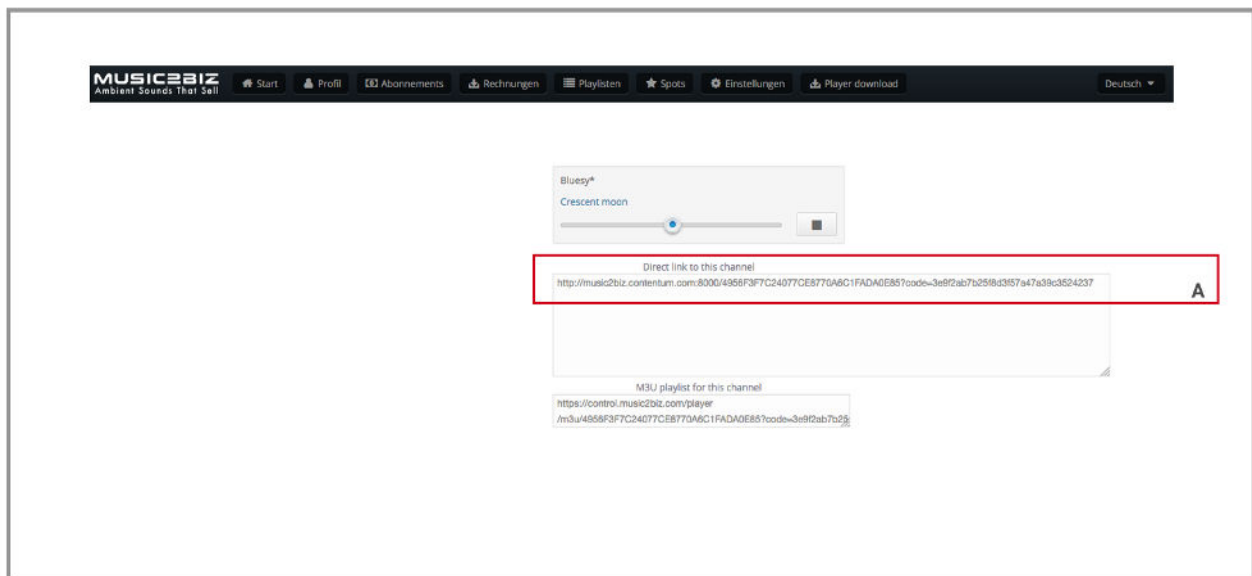

## 16 Axis copy M2B music stream

This page shows two links one can copy

**A) -> You want to copy the „Direct link to the channel“.**

It has to be a <http://> Link because the Axis Audio Player Backend does not support <https://> Links.

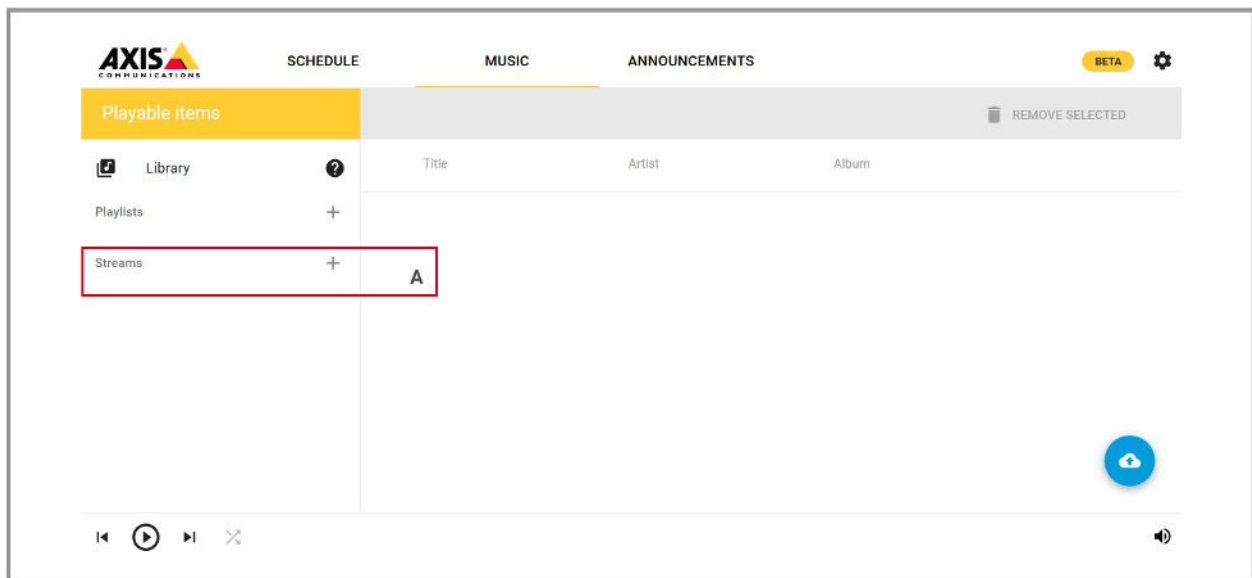

## 17 Axis music admin detail screen

Click back to the tab with the Axis Audio Player Backend where you have clicked on „MUSIC“

The page that should have opened will look similiar to this one.

**A) In the left navigation menu click on the „+“ next to „Streams“.**

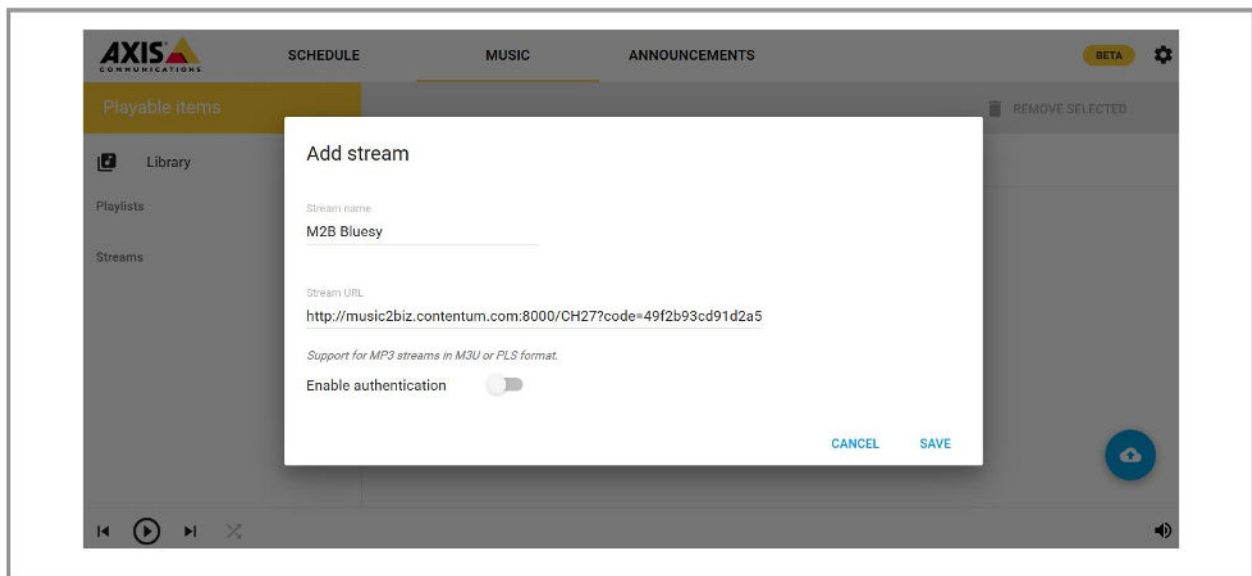

## 18 Axis add stream

Give your Stream a name,e.g. „M2B Bluesy“. ->

Paste the MUSIC2BIZ stream URL from your clipboard into the pop up form.

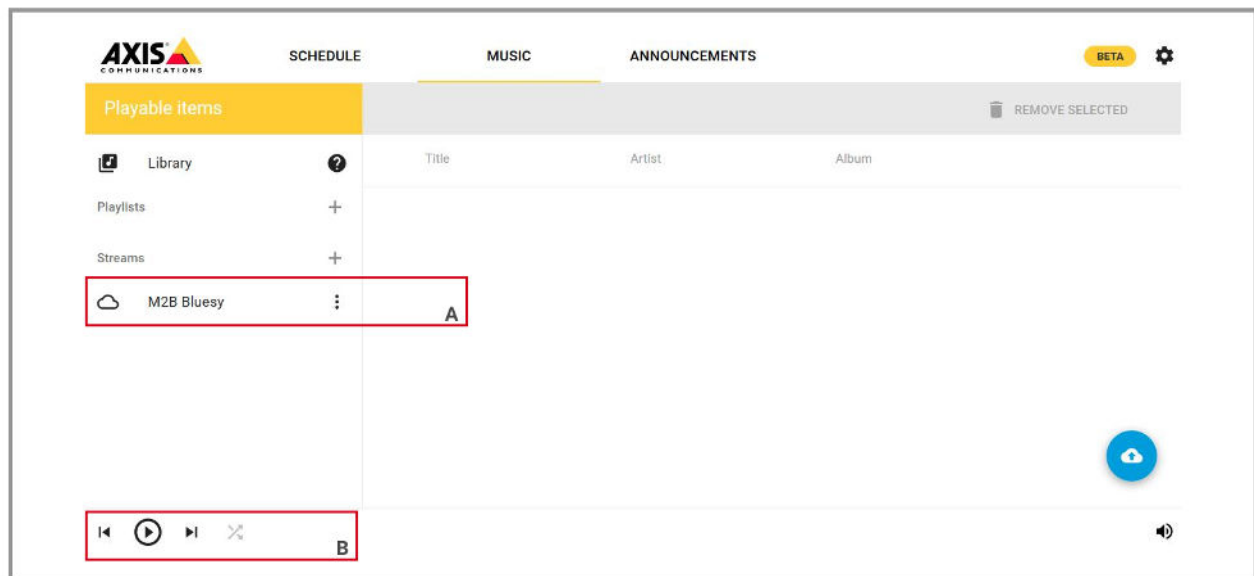

Click „Save“

## 19 Axis MUSIC2BIZ stream added

A) After saving the stream URL the pop up form closes and you will be back on the stream page and the „M2B Bluesy“ stream should be added.

B) -> Click play and the music should start playing the MUSIC2BIZ music program.

## 20 Axis MUSIC2BIZ stream is playing

Enjoy the music provided by MUSIC2BIZ.
