

Certificate for royalty-free music

This certificate confirms that your business is authorized to use royalty-free music supplied by MUSIC2BIZ.

Herewith we certify that all music titles of your streaming subscription at MUSIC2BIZ without exception contain royalty-free music, since the composers and arrangers of the music delivered to you by us are not members of a rights collecting society.

In connection with a current invoice from MUSIC2BIZ as proof for the acquisition of the usage permission of our streams – or also as USB stick – we hereby approve the public performance within your business or practice premises. Please note, however, that a separate license (for streaming or USB stick purchase) is required for each of your branches (business premises at different locations).

For the use of our music in the context of media productions (Internet, films, slide shows etc.), which are presented publicly, you need a separate written permission from MUSIC2BIZ.
